

Crowley Lake Stillwater Classic Rules and Registration Information

1. All legal and USCG approved floatation devices, powerboats, pontoons, float tubes, kayaks, etc... shall be admitted to participate in the event. Boats must be a minimum of 12 feet in length and have at least a 5 horsepower motor as well as all USCG safety gear. Fish finding equipment, sonar's, GPS units, are permissible in the event. Contestants are responsible for complying with all applicable state and local boating laws, and shall have an approved floatation device for each passenger.
2. Private boaters without Crowley Lake Fish Camp season passes will be required to pay regular lake use and parking fees, which are \$20 per day. Slips are available for an additional \$15 per day and reservations are encouraged, as the slips are limited.
3. Contestants must conform to all current DFG regulations and display current licenses if applicable. DFG violations will result in disqualification.
4. Contestants must use a fly rod with either floating or sinking lines. You may fish with ONLY one rod. Spare rods, reels, and alternate rigs are allowable; they must not be fished simultaneously. Strike indicators, multi-fly rigs (up to three flies), streamers or wet flies, dry flies, are all allowed. Hooks must be barbless as per DFG regulations.
5. There are two categories in the event, Individual and Team. Teams may have any number of members. Your total team score will be tallied and then divided by the sum of its members. Example: Team #5 has 4 members. The team compiles 24 points during the event. 24 divided by 4 equals 6. This would be the score that your team would post for a prize in that category. You may enter in either or both of the individual and team categories.
6. In the event of a tie, or ties, in either of the categories, the prizes will be split up evenly or decided by drawing amongst the winners.
7. Employees of the Crowley Lake Fish Camp, licensed guides, or persons administratively associated with the event are not eligible for prizes. Entrants are not allowed to receive advice or have licensed guides in their boats if competing for prizes. Although guides or entrants fishing with guides are not eligible for prizes, they are welcome to enter the contest and will be recognized at the awards ceremony if they place but prizes will be passed down to the next place. A total of five places, excluding

guides and entrants fishing with guides, will be awarded in each category. Entry fees are \$75 for each contestant in the team and individual categories, or \$150 if you enter in both categories.

8. Each entrant in each category will also receive one (1) raffle ticket for additional prizes. Preregistration by August 1st 2009, will entitle you to a BBQ style dinner, and a commemorative T-shirt. You may purchase additional raffle tickets for \$10 each or 3 for \$25.

9. Points are scored by successfully hooking then netting, or bringing your hand to the leader's end and releasing the fish. All species of fish in Crowley are eligible. Each successfully caught and released fish will receive one point. Each contestant or team shall be issued a whistle and numbered flag. When a contestant successfully hooks a fish they shall use the whistle to insure that a judge has witnessed the hook up. Judges will observe the contestant until he or she successfully nets or releases the fish. The contestant will then display their individually numbered flag and the judge boat will acknowledge a score by sounding an audible horn.

10. This is strictly a catch and release tournament and contestants will not be scored points for fish that are removed from the water for measuring, weighing, or hook removal. Length or weight of the fish is NOT important. A 10 inch fish will be scored as much as a 24 inch fish. Fish that are netted and removed totally from the water and into a boat or dry tube apron will NOT be scored by the judge. Judge boats will be "roving" to inform contestants of fish that are not scored due to "long distance releases" or an improper release. Nets must be of smooth nylon or rubber materials. Monofilament nets severely damage the fish's skin and fins and will not be allowed in the event. You may successfully release a fish by dislodging the barbless hook with the use of pliers or other hook dislodging tools without putting a fish into a net. However, the body of the fish must remain in the water throughout the process in order to be scored.

11. The event will begin on August 8th 2009 at 6:30am and will continue (weather permitting) until 1 p.m that day. Check in and equipment issuance (flags, whistles) will begin on Friday August 7th at 9am and close at 8 pm. Pre-registration is strongly encouraged.

12. Crowley Lake Fish Camp Staff will be on hand Friday, August 7th to answer questions and inform contestants where the events areas and boundaries shall be for the Classic.

13. All of the proceeds from the Third Annual Crowley Lake Stillwater Classic will be used to stock trout in Crowley Lake, including all monies generated through the sales of raffle tickets. So buy lots of raffle tickets!!!

14. All contest rules are subject to interpretation by the event organizers in the interest of fairness and their decision is final.
